La cura giusta per il tuo nuovo tavolo.

Affinché il piano del tavolo resti brillante a lungo, usa sottobicchieri per bicchieri, tazze e simili. Così eviti forti differenze di temperatura che agiscono sul piano e possono causare scolorimenti.

Piastrella ceramica: proprietà
Facile da curare | Antigraffio | Antigelo | Idrorepellente | Antisporco

Piastrella in ceramica: Consigli e cura
Rimuovi lo sporco semplicemente con un detergente delicato e un panno in materiale morbido. Sono la scelta migliore. Non usare spugne abrasive o pagliette per la pulizia, perché causano graffi e zone opache.

Per una lunga durata dei nostri mobili da giardino ti consigliamo coperture protettive traspiranti, che proteggono i tuoi mobili dagli agenti atmosferici in inverno o quando non li usi.

CONSIGLIO: Per evitare scolorimenti, la copertura protettiva non deve restare a lungo a contatto con la superficie del tavolo. I distanziatori offrono un supporto ideale.

How to take care of your new table.

To keep the tabletop shining for a long time, use coasters for glasses, cups and co. This will help you avoid high temperature differences, which can affect the tabletop and lead to discoloration.

Ceramic tiles: maintenance and care
Simply wipe off any dirt with a cloth and a mild cleaner. Soft materials such as are the best choice here. Please do not use abrasive or pot sponges for cleaning, as this can lead to scratches and dull spots.

For a long life of our garden furniture, we recommend breathable weather protection covers that protect your furniture from the weather during the winter or when not in use.

TIP: The protective cover should not be in contact with the table surface for a long period of time to avoid discoloration. Spacers provide ideal support here.
